Sampling and Samples Management

Independent Inspectors CSS Ltd. is the first Bulgarian Inspection Company accredited according the requirements of BDS EN 45004 as an Inspection Body by BSA (Bulgarian Accreditation Service) â€“ Accreditation Certificate No. 13C-OKA/K. The Company was reaccredited as per BDS EN ISO/IEC 17020:2005 with Certificate BAS No. 204-OKA with validity until April 30, 2010.
A lot of Clients would not know or would not properly evaluate the difference of inspection services they would order to a company accredited as an Inspection Body or to some other company who might claim to be good but without any proof from authorized organs.

- We are fully equipped and ready to take samples from the materials inspected in compliance with the requirements of the International Standards. Our accreditation as an Inspection Body gives additional assurance to our Clients that all operations with their samples â€“ taking, professional packing and labelling, transportation, safe-keeping, documentation and follow-up are under the guaranteed by the Certificate responsibility which we strictly follow.
- Analyses of samples

Samples taken by us are submitted for analysis to laboratories in Bulgaria or abroad as per Clientâ€™s preference undertaking the whole logistics. We consult Clients as to which would the most appropriate laboratory be, prices for testing, representativeness of the results. We strictly follow the tests to be carried out in the technological terms of the laboratories and we submit the Certificates to Clients without delay.
